

GP Subcommittee/LMC Election 2020

Background Information

The Local Medical Committee (LMC) and GP Subcommittee meetings are held at 7:30pm on the third Monday of every month, except July and August, at the Committee offices at 40 New City Road, Cowcaddens.

In Greater Glasgow and Clyde, the two Committees are represented by the same office bearers and a single Committee for both functions. There are separate agendas for both Committees.

1. The GP Subcommittee has two main statutory functions:
 - (a) To provide advice on the operation of general medical services;
 - (b) To advise the Area Medical Committee (the general function of the Area Medical Committee is to advise the Health Board on the provision of NHS services).

2. The LMC deals with matters relating to the remuneration and conditions of service of doctors. These matters are generally referred to as medico-political.

The LMC also appoints representatives to the Scottish General Practitioners Committee (SGPC) in Edinburgh, and we work closely with Glasgow representatives on the General Practitioners Committee (GPC) in London. These Committees conduct negotiations on general practitioners' behalf with the Scottish Government and UK Government Departments respectively.

Listed below are those members whose term of office ends on 31st March 2020 and who are eligible for re-election followed by those members whose term of office ends on 31st March 2022.
