

GARDENING CERTIFICATES

The Local Medical Committee has advised GPs in Glasgow & Clyde NOT to issue these certificates.

These certificates are NOT part of your GP's Medical Services.

We suggest that patients themselves advise their Council/Housing Association/Service provider why they require this service. It is then for the Council/Housing Association/Service provider to decide if the patient qualifies for this service.

We are sorry if this causes inconvenience but the Council/Housing Association/Service provider has not discussed provision of these certificates with Glasgow & Clyde GPs.

Glasgow Local Medical Committee April 2015
