New Staff – COVID vaccination

As the community vaccination programme nears completion we are no longer running separate staff clinics but will be inviting staff to the community clinics via letter

Everyone over 40 should have received an appointment directly with those over 30 being invited from 31st May

If you are in these age groups and have not received an appointment you should call the national help line on 0800 030 8013

The only staff who will not be captured by this are those under 30 who should complete this form
